

CAPITAL IMPROVEMENT PLAN 2019 – 2021

**NORTHERN
ARIZONA** 
UNIVERSITY

**CAPITAL IMPROVEMENT PLAN
FISCAL YEARS 2019 -2021**

**SUBMITTED TO THE
ARIZONA BOARD OF REGENTS
SEPTEMBER 2017**

September 27, 2017

Dear Members of the Arizona Board of Regents:

On behalf of Northern Arizona University, I am pleased to present the Capital Improvement Plan (CIP) for fiscal years 2019 - 2021. Our CIP is responsive to the Enterprise Plan and mission articulated for the Arizona University System, and it is aligned with the vision communicated in our university strategic plan and comprehensive master plan. The projects proposed in the current CIP focus on planned improvements in students' educational experiences, vital research facilities, and provide a needed increase in space on the mountain campus.

NAU continues to show a commitment to capital improvements that provide students, faculty, and staff with high quality, safe environments dedicated to academic and research endeavors. A commitment to reinvesting in existing facilities as well as a specific focus on STEM programs is presented in the FY2019 priorities, while additional space for a wide array of other programs is presented in the FY2020 – 2021 priorities. NAU continues to integrate academic priorities, financial strategies and capital needs to achieve strategic goals of excellence, student access, student retention, and growth in enrollments and research.

We believe this capital plan advances our goal of a campus whose physical structures facilitate instructional and research programs. Approval of this plan permits the mountain campus to address facility needs, support the state's higher education initiative, and effectively meet the needs of our future students while achieving key metrics of the Regents' Enterprise vision. Thank you for your support.

Sincerely,

Rita Hartung Cheng
President

DEFERRED MAINTENANCE REPORT**

**NORTHERN ARIZONA UNIVERSITY
 FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
 DEFERRED MAINTENANCE REPORT**

DEFINITION AND EXPLANATION OF DEFERRED MAINTENANCE FOR THE ARIZONA UNIVERSITY SYSTEM

- Facility condition deficiencies identified through physical inspections where deterioration and/or life safety concerns are evident and affect the proper functioning of the facility. Typical building components with deficiencies include: heating, ventilation and air conditioning, roofs, flooring, walls, ceiling and lighting, electrical, and plumbing. Deferred Maintenance does not include routine maintenance needs, although failure to adequately fund routine maintenance eventually will add to the deferred maintenance backlog. Also, Deferred Maintenance does not include infrastructure, Americans with Disabilities Act upgrades, or other non-mandated code requirements that have been established since a building was constructed, unless these deficiencies are part of an overall upgrade. The cost for Deferred Maintenance is not the total cost to modernize a building.
- When compromised buildings and infrastructure components are not able to be updated through the Building Renewal process, they become candidates for Deferred Maintenance. When building performance and integrity are not high priorities, deferred maintenance burgeons and results in increased emergency repairs and deterioration of capital assets. Many years of previous piecemeal renovations have modified structures, ventilation, and electrical systems so that many buildings no longer meet original code requirements, much less current standards. The quality of teaching and research facilities is ultimately negatively impacted.
- A fully funded capital renewal program is necessary to reverse the deferred maintenance backlog and extend the useful life of the facilities. Deferred Maintenance figures include labor, material, and indirect costs such as architectural services. Facilities scheduled for demolition during the next fiscal year are included in Deferred Maintenance figures to anticipate potential schedule changes.

DEFERRED MAINTENANCE STATUS

	<u>June 30, 2016</u>	<u>June 30, 2017</u>
• Estimated Deferred Maintenance.....	\$119,812,376	\$128,140,321
• Facility Condition Index.....	0.08	0.08
• Estimated Deferred Maintenance Aux.....	\$ 18,052,236	\$ 29,814,617
• Facility Condition Index Aux.....	0.02	0.04

- The facilities condition index (FCI) is a ratio of the estimated Deferred Maintenance to the estimated building replacement value. An FCI less than 0.05 is an indication that facilities are in “good” condition. A desirable FCI goal is 0.02. An FCI of 0.5 - 0.10 is an indication that facilities are in fair condition. An FCI greater than 0.10 is an indication that facilities are in poor condition. An FCI greater than 0.15 is an indication of facilities at risk for failure or non-functionality, if significant renovation or replacement does not occur soon. Buildings with an FCI greater than 0.40 are difficult and costly to renovate, and where possible, demolition is suggested.

FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
DEFERRED MAINTENANCE REPORT continued**

ACTION PLAN TO ADDRESS DEFERRED MAINTENANCE IN FY 2018 AND 2019

- The University is pursuing preventive maintenance to avoid costly future maintenance issues. Facility Services trade staff is actively working to detect conditions that have potentially major costs if left unremediated and schedule preventive measures.
- NAU will pursue a variety of options to further reduce deferred maintenance in life safety, mechanical systems, and roofing systems for FY19. The requested FY19 Building Renewal request, if allocated, would be used to directly address capital renewal items which will directly correlate to a reduction in deferred maintenance needs.
- NAU provides annual and one-time funding to address ongoing maintenance needs for Academic/Support facilities including classrooms, fire systems, roofing systems, building system failures, and emergency repairs. To improve learning and teaching environments, NAU allocated one-time funds to address classroom maintenance and upgraded technology, as well as life safety needs in FY17 and plans to again in FY18. Separately, roadways, sidewalks, and other campus infrastructure and utility infrastructure are addressed annually but are not included in deferred maintenance calculations or valuations.
- NAU is in the initial stages of investigating a multi-building deferred maintenance and energy upgrade project through a third-party. This project could potentially start in FY18 and address deferred maintenance in multiple academic buildings. Lighting would be the initial focus, with follow-on phases addressing other deferred maintenance and energy conservation measures.
- NAU is working with UA and ASU to propose potential funding options to address mutual deferred maintenance needs. All three universities utilized a benchmarking service to measure campus needs and compare to peers.

FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
DEFERRED MAINTENANCE REPORT continued**

METHODOLOGY

- Northern Arizona University's planned methodology utilizes a two-step process, which consists of both macro and micro level audits. Knowing the construction date of a building and the date when major building improvements occur, staff can estimate the magnitude of the campus deferred maintenance needs at a macro level. These figures can be calibrated by comparing them to previous campus audits completed by professional auditing firms. Building inspections performed by in-house staff used in conjunction with review of maintenance and repair data provided by the work order management system can identify the most obvious and/or priority needs. These identified items can be prioritized and addressed by critical status and available funding. It is anticipated the NAU program will be implemented by FY19 and will include, at a minimum, an annual audit schedule of 25% of NAU facilities. This program will comply with state requirements for annual facility inspections and enhance preventive measures to avoid costly maintenance. For buildings inspected during previous years, deferred maintenance estimates will be updated annually by reviewing completed facilities improvement projects, inflation, and a 2% factor for standard deferred maintenance deterioration.

- A combination of internal and external reviews of buildings will be utilized in cases where systems or facilities require extensive engineering review. Completed projects that remediate Deferred Maintenance, or newly discovered issues, are documented. Building Deferred Maintenance estimates will continue to be updated by reviewing annual maintenance and construction projects.

Other	2,242,660			2,242,660
TOTAL	\$ 9,045,053	\$ 23,627,800	\$ 30,516,799	\$ 63,189,652

Estimated End of Year Deferred Maintenance ⁽³⁾⁽⁴⁾	\$ 157,954,937	\$ 145,000,000	\$ 125,200,000
---	-----------------------	-----------------------	-----------------------

NOTES:

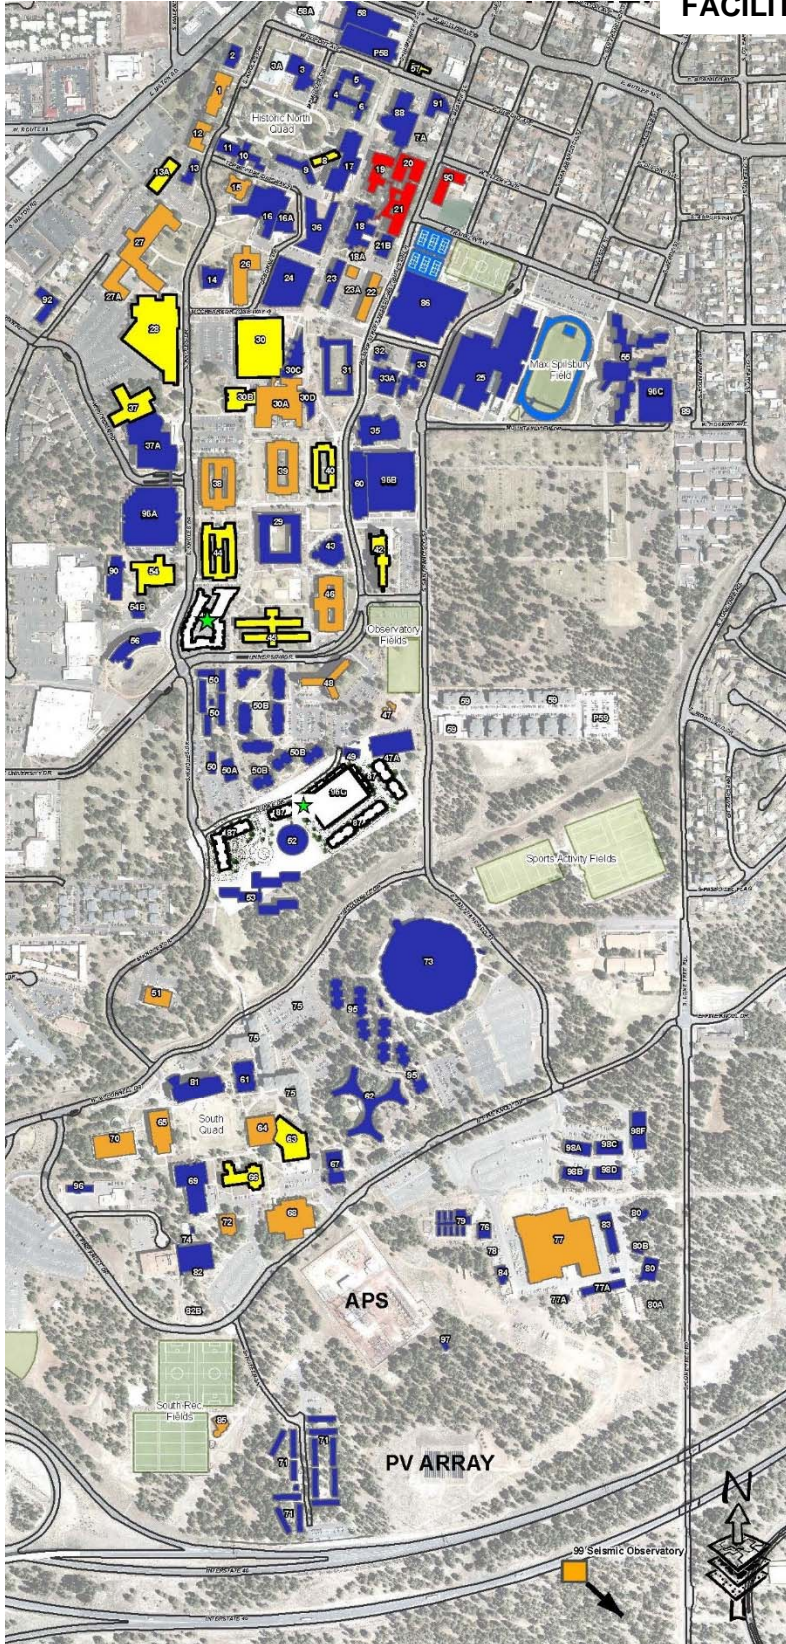

- 1) The Building Renewal allocation for FY2019 is based upon the University receiving the full Building Renewal funding request.
- 2) Reflects total amount of debt to be issued during that fiscal year that will impact deferred maintenance.
- 3) FY18 – 19 applied 0.65% of State Appropriations and Local Funds.
- 4) FY18 – 19 Deferred Maintenance estimate projections have not been adjusted for anticipated inflation /deflation factors.

BUILDING INVENTORY REPORT

**NORTHERN ARIZONA UNIVERSITY
 FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
 BUILDING INVENTORY SUMMARY
 As of June 30, 2017**

Category	Academic/Support Facilities	Auxiliary Facilities ⁽¹⁾	Total
Number of Facilities ^(2,3)	88	38	126
GSF ⁽⁴⁾	3,671,039	3,213,605	6,884,644
Estimated Replacement Value	\$1,676,406,724	\$838,902,891	\$2,515,309,615
FY 2019 Building Renewal Request ⁽⁵⁾	\$19,116,799	Not Applicable	\$19,116,799

Notes:

(1) Auxiliary enterprise facilities (essentially self-supporting entities) do not qualify for state appropriated Building Renewal Funding.

(2) Tinsley (Building 44), Aspen Crossing (Building 29), and Cowden (Building 38) Residence Halls contain academic classroom space and are included in auxiliary facilities for this report. North Union 1899/Prochnow (Building 3) and the Bookstore (Building 35) contain both Academic/Support and Auxiliary space. For the purposes of the Building Inventory Summary, the "Number of Facilities" row will categorize a mixed use facility based on the highest GSF usage.

(3) Some facilities are complexes consisting of several individual building structures, but for the purposes of this report are counted as one building. The multi-building facilities are: Campus Heights (Building 50), McKay Village (Building 50B), South Village Apartments (Building 71), Facility Services Annex (Building 77A), Ceramics (Building 80), South Beaver School (Building 93), and Pine Ridge Village (Building 95).

(4) The measurement of all buildings to verify GSF is in process. 30 percent of buildings were verified in FY15, additional 60 percent verified in FY16 and are reflected in this report. The remaining 10% are new construction, renovations, or purchased buildings that were verified in FY17.

(5) Building Renewal is computed each year following a standard formula that considers the building age, current replacement value, and renovation/renewal history. When calculating the current replacement value, ABOR instructed the universities to utilize the initial building replacement costs as calculated by the April 2002 Construction Cost Control Guidelines. To calculate the replacement value, ABOR instructed NAU to utilize a 6.39% inflation factor. This computed figure is the basis of the University's FY 2019 Building Renewal Request.

FOOTNOTES

- (1) All buildings in the system are listed; excludes space leased from others unless a lease-purchase.
- (2) As adjusted for applicable projects using the Sherman-Dergis method. 100% Auxiliary enterprise buildings were not adjusted.
- (3) The measurement of all buildings to verify GSF is in process. 30 percent of buildings were verified in FY15, additional 60 percent verified in FY16 and are reflected in this report. The remaining 10% are new construction, renovations, or purchased buildings that were verified in FY17.
- (4) Auxiliary enterprises do not generate building renewal allocation amounts.
- (5) Estimated replacement values are calculated using the Regents' Construction Cost Control and Professional Fee Guidelines.
- (6) Renewal request is calculated using the Sherman-Dergis formula with direction from the Regents' central office.
- (7) Building inspections are completed by Facility Services within a four-year cycle as funding allows.
- (8) Deferred Maintenance costs do not reflect code items. Costs reflected only restore building to original construction.

FY 2019– 2021 CAPITAL IMPROVEMENT PLAN**

SUMMARY OF LEASES IN EFFECT DURING FY 2017

	Number of Leases	Gross Square Feet	Acres	Lease \$/Year (Receipt) Expenditures	Number of Leases New	Number of Leases Continued	Number of Leases Terminated
NAU as Lessor	15	503,366	N/A	(\$802,759)	0	14	1
NAU as Lessee	43	1,820,624	38.35	\$3,042,786	0	39	4
Capital Lease	2	N/A	N/A	N/A	0	2	0

Notes

(1) The Board has delegated to the universities the responsibility to establish leases (including amendments and renewals) without specific Board approval unless:

As Lessor (university leasing to others) - the lease including all renewals runs longer than 10 years, or the annual base lease amount exceeds \$500,000, or the rental rate is less than the fair market value of the property.

As Lessee (university leases from others) - the lease including all renewals exceeds 5 years, or the total annual lease amount exceeds \$500,000.

(2) Any leases requiring Board approval will be brought forward as separate agenda items.

CAPITAL PROJECT CATEGORIES**

PROJECT TYPES

NEW CONSTRUCTION

CODE	TITLE	DESCRIPTION
NAS	Academic and Support Space	The creation of a new academic, research, or other support facility or the addition, expansion, or extension of an existing academic or support facility that adds to the building's overall Gross Square Footage. Includes building demolition where such demolition is necessary for the construction of a new building or facility.
NAX	Auxiliary	The creation of a new auxiliary facility or the addition, expansion, or extension of an existing auxiliary facility that adds to the building's overall Gross Square Footage. Includes building demolitions where such demolition is necessary for the construction of a new building or facility.
NIN	Infrastructure	Construction or expansion of new basic support systems and components that deliver to buildings such common utility services as heating/cooling, water and sewer, electricity, gas, telecommunications, etc. Also includes support systems and components such as roadways, sidewalks, parking lots, external lighting, landscaping and irrigation systems where such systems and components are not part of another new construction project.

CAPITAL RENEWAL

CODE	TITLE	DESCRIPTION
CAS	Academic and Support Space	The reconfiguration of existing academic, research, or other support space including the alteration or upgrading of major systems, components, and fixed equipment which extends the useful life of the building or a portion of the building necessitated by facility obsolescence, change in use, code requirements, physical plant wear-out, etc.
CAX	Auxiliary	The reconfiguration of existing auxiliary space which includes alteration or upgrading of major systems, components, and fixed equipment which extends the useful life of the building or a portion of the building that is necessitated by facility obsolescence, change in use, code requirements, physical plant wear-out, etc.

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
CAPITAL PROJECT CATEGORIES**

CAPITAL RENEWAL (continued)

CODE	TITLE	DESCRIPTION
CIN	Infrastructure	Renewal or replacement of existing basic support systems and components that deliver to buildings such common utility services as heating/cooling, water and sewer, electricity, gas, telecommunications, etc. Also includes support systems and components such as roadways, sidewalks, parking lots, external lighting, landscaping and irrigation systems where such systems and components are not part of another Capital Renewal project.
CAD	Accessibility	Necessary for compliance with the American with Disabilities Act and other measures to make facilities accessible for individuals with disabilities that substantially limit one or more life activity, e.g., exterior building access, doorway widths, toilet facilities, drinking fountains, special signage, telecommunication, assistive listening systems, path of travel issues, etc.
CLS	Life Safety/Code Compliance	Necessary to eliminate a hazardous condition that threatens life or property, or is necessary to comply with state and federal regulations, e.g., fire safety, code compliance, environmental regulations, etc.
CMM	Major Maintenance/System Replacement	Renewal and replacement of capitalized building systems and components due to end of useful life, physical plant wear-out, or obsolescence, e.g., renewal of fixed equipment, roof replacements, HVAC systems, plumbing systems, electrical systems, window systems, flooring, elevators, etc.
CME	Major Maintenance – Energy Conservation/Cost Savings	Projects that will achieve savings in current energy consumption or provide substantial savings in operating costs, e.g., upgrading HVAC systems, retrofitting lighting fixtures, installing variable drive motors, installing soft start motors, installing energy management systems, etc.
COT	Other Capital Renewal	Other improvements and expenses related to existing facilities and infrastructure not included under other Capital Renewal categories.
OTH	Other	Other improvements to facilities and infrastructure not included under New Construction or Capital Renewal categories. Examples include completion of shell space and facilities related studies.

FY 2019 PROJECT JUSTIFICATIONS**

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

PROJECT SCOPE AND COST

PROJECT NAME: **Science Annex Renovation**

Priority: 1

DESCRIPTION:

The 3rd and 4th floors of Building 20 Science Annex (formerly Chemistry) are currently not occupied due to numerous Building, Fire and ADA codes issues as well as general disrepair affecting virtually all building components including HVAC, electrical, windows (common to the entire building) and finishes. The space also contains hazardous materials that do not necessarily pose an immediate health threat but must be remediated prior to construction activities. The intent of this project is to bring those two floors into code compliance and general modernization. These two floors will be left as shell space suitable for open offices or tenant improvements as needed by future occupants. The total renovation of the 3rd and 4th floors is 34,115 GSF, while the total building is 73,168 GSF.

JUSTIFICATION:

The university is building a North Campus Science Corridor to maximize the benefits of colocation of critical STEM programs. The Science Annex is an underutilized building as the 3rd and 4th floors are currently vacant and impaired for use. A renovation of this space allows NAU to leverage its existing capital to create added usable square footage for these critical programs. This renovation will enable the occupants of the Peterson building to move into nearby space to permit the demolition of Peterson to make way for a new Multi-Discipline STEM Academic/Research Building (Priority 3).

ESTIMATED PROJECT COST: \$17.4 million

FUNDING SOURCE: System Revenue Bonds

PROJECT SCOPE AND COST

PROJECT NAME: **Multi-Discipline STEM Academic/Research Building**

Priority: 2

DESCRIPTION:

This project represents the construction of a new 162,500 GSF building dedicated to multiple disciplines within the STEM programs. A new multi-discipline science building is needed to provide adequate space for departments that have increased enrollments over the last several years in order to maintain a high academic standard. The full programming of the building is to be determined over the next several months. This building would be located at the site of an existing building, Peterson. The cost to demolish Peterson is not included in this projected budget.

JUSTIFICATION:

The university's top two strategic goals are student success and national recognized research excellence. Space on NAU's mountain campus is increasingly limited and there is not adequate space to match the research goals established. Attention to the STEM fields is vitally important for NAU to remain competitive in the marketplace and deliver high-quality graduates and research. Additionally, this building will become a vital component of the North Science Corridor to maximize the benefits of colocation of critical STEM programs.

ESTIMATED PROJECT COST: \$139 million

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

TWO YEAR CAPITAL FORECAST (FY 2020 – 2021)

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

PRIORITY	PROJECT NAME	PROJECT DESCRIPTION
1	Biological Sciences Building Renovation	<p>The Biological Sciences building is 86,964 GSF and in a deteriorating condition with an FCI of 42%. A complete renovation of the facility will modernize the space to increase the building's research ability. It will increase the functionality and usability of the academic space to meet enrollment and research growth projections for Biological Sciences to meet the higher education Enterprise Plan. The space will provide opportunities for independent research and expand access for students and researchers. This space will support academic programs that prepare students for an increasingly technical world. Renovating existing space is a fiscally responsible plan for NAU to reinvest into existing capital. This building is part of the North Campus Science Corridor.</p>
2	Physical Sciences Building Renovation	<p>The Physical Sciences building is 51,318 GSF and is in a deteriorating condition with an FCI of 42%. A complete renovation of the facility will modernize the space to increase the building's research capacity. It will enhance the functionality and usability of the academic space to meet enrollment and research growth projections for Physical Sciences to meet the higher education Enterprise Plan. The space will provide opportunities for independent research and expand access for students and researchers. This space will support academic programs that prepare students for an increasingly technical world. Renovating existing space is a fiscally responsible plan for NAU to reinvest into existing capital. This building is part of the North Campus Science Corridor.</p>
3	Health Research Sports Performance and Convocation Center	<p>This project will address academic and athletic needs, specifically for the athletic training and physical therapy academic programs. This project will address academic and training needs for university athletic programs as outlined in the NAU athletic strategic plan. The project would provide space for faculty in health related programs (athletic training/physical therapy), classroom space, and for student-athletes currently training in the Fieldhouse and Rolle Activity Center, which do not meet NCAA requirements. The performance component will provide study spaces that promote academic excellence. This consolidated academic/athletic facility will alleviate student athlete travel, facilitate collaborative study, and provide a sense of community.</p>
4	Lab Upgrades and Renovations	<p>Research labs in Engineering, Health Sciences and Social and Behavioral Sciences are out of date and in a deteriorated condition. This project will address needed repairs and modernization of the labs, as well as the functionality to optimize the research that can be performed in the existing spaces.</p>

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

PRIORITY	PROJECT NAME	PROJECT DESCRIPTION
5	Classroom/Office Building	The development of a new classroom/office building will allow the university to remove red and orange buildings from the central core, which is consistent with the 2010 Master Plan. The university will be able to relocate residents of Babbitt Annex to a new classroom and office building, to enable the demolition of Babbitt Annex.
6	South Campus Academic Building	This project will address the aging buildings utilized by Social and Behavioral Sciences and Social Behavioral Sciences West. A space needs assessment identified the need to reconfigure the existing spaces into more functional and useable spaces, as well as accommodate additional programs like Anthropology. Renovations to the buildings or construction of a replacement are necessary to address the space and the condition of the buildings.
7	Adel Math Renovation and Expansion	Adel Mathematics was constructed in 1962 and has a facility condition index approaching 40%. Current inefficiencies in design and wear and tear make this a poor classroom building. It is anticipated that Adel will be renovated into offices pending and expanded to make more efficient use of its existing footprint. Mathematics is a service department that sees increased enrollment in correlation with NAU's enrollment growth. As NAU's enrollment continues to increase to meet 2025 Enterprise Goals, Mathematics will need a correlating increase in space to accommodate.
8	Cline Library Renovation and Study Space Expansion	A recent campus space assessment indicated that the library is deficient over 30,000 square feet and needs increased space to fully serve the students. Student study space is undersized and outdated. An aesthetic renovation will build a creative environment that meets the students' needs and desires. Additionally, aging HVAC and FLS infrastructure in the Special Collections and Archives are now more than 25 years old, putting these unique and valuable collections at considerable risk. An academic strategic plan coupled with a space plan for Cline Library is planned to further define the programming of this project.

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

PRIORITY	PROJECT NAME	PROJECT DESCRIPTION
9	Native American Cultural Center Expansion	One of NAU's strategic goals is to become one of the nation's leading universities serving Native Americans. By expanding the existing 12,849 GSF Native American Cultural Center, NAU will position itself to have more collaborative gathering spaces and academic spaces for the Native American community. Additionally, this expansion will bring the Institute for Tribal Environmental Professionals to the Native American Cultural Center bringing unity and colocation for all Native American services on campus.
10	ITS and Administration Building	A new central ITS and Administration building will consolidate the administrative and core support functions to a central campus location. The location of this building is to be determined.
11	Early Childhood Education Teaching and Research Center	The lack of child-care facilities on campus has long been a source of dissatisfaction for both students and faculty and was one of the strongest negatives in the COACHE survey. The College of Education's specialization in early childhood education brings with it the potential to address the childcare issue while creating a "lab school" environment that will benefit NAU's academic program.
12	Central Campus Parking Structure	This project constructs a new parking structure adjacent to Cline Library, Ardrey Auditorium and the Performing and Fine Arts Academic building. Utilizing an existing parking surface for the site of the new parking structure is consistent with the 2010 Master Plan. The Master Plan guides relocation of parking from internal campus parking surfaces to parking structures sited along campus perimeters. This project is needed to alleviate parking on north campus as interior parking surfaces are allocated for instructional expansions and restored green space for student activities.
13	Parking Structure - Phoenix Biomedical Campus	This project will address the need for a parking facility to support the faculty, staff, and students at the recently constructed Phoenix Biomedical Campus in Phoenix. This project would be pursued through a third-party.

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

PRIORITY	PROJECT NAME	PROJECT DESCRIPTION
14	South Campus Parking Structure	<p>A project to construct a parking deck to service the southwest region of campus on the site of an old detention center acquired from Coconino County. This use is consistent with the 2010 Master Plan. The structure would be located on south campus so as to be accessible to the highly used W. A. Franke College of Business, the Raul H. Castro Social and Behavioral Sciences Building, and the College of Engineering, Forestry and Natural Sciences buildings. It is anticipated this structure will include space for a bus depot to provide increased student access and services in navigating campus.</p>
15	Campus Utility and Infrastructure	<p>This project will continue utility improvements needed to support increased research, academic programs, technology requirements and enrollment projections. It will also address aging infrastructure. The project scope will include infrastructure upgrades/replacements to improve and ensure stable delivery of utilities for current and future campus development. The scope will include metering, steam, electrical, chilled water, system controls, and other systems support requirements.</p>

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

DEBT REPORT

NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN
ANNUAL ASSESSMENT OF DEBT CAPACITY
(amounts in millions)

This draft summary Annual Assessment of Debt Capacity demonstrates Northern Arizona University's ability to finance additional capital construction through debt instruments. A complete debt capacity report is available from the Arizona Board of Regents Central Office upon completion of the annual financial statement audit.

BACKGROUND:

- NAU must demonstrate its ability to service debt (pay principal and interest) through the debt capacity reports for projects proposed for debt financing. The University Financial Services Office projects revenues and expenditures through FY 2026 using historical data from the audited financial statements and cash flow projections from various internal sources. FY18 projections are based on the University's approved budget. Beginning in FY19, revenue and expense are based upon internal estimations.
- The outstanding System Revenue bonds (SRB's) and Certificates of Participation (COPS) debt for NAU at the end FY 2017 is estimated to be \$376.7 million, an increase of \$0.9 million. Total annual debt service is \$26.9 million, or about 4.7 percent of total projected expenses. The University total outstanding debt including SRB's, COPS, SPEED, capital leases, and other long term debt is \$594.7 million at June 30, 2017.
- Based upon NAU's proposed funding sources for projects in the FY 2019-2021 CIP the projected outstanding debt at the end of FY 2018 is estimated to be approximately \$516.7 million (with SPEED³ projects), with total annual debt service of \$39.3 million (6.7 percent of projected total expenses).

<i>Existing Debt Service as a Percentage of Total Expenses (Estimated as of FY17 year end) ⁽¹⁾</i>	<i>Projected Debt Service as a Percentage of Total Expenses, excluding/including SPEED project financings ⁽²⁾</i>
4.7%	6.4 % / 8.0%

(1) Note: Ratios are based on Total Expenses

(2) Note: Projections are based on full implementation of the CIP. The figure shown is the maximum percentage during the years FY18 to FY26.

(3) Note: SPEED – Stimulus Plan for Economic and Education Development was authorized by HB2211 to stimulate the state's economy through capital construction for the state's 3 universities. The house bill authorizes the use of state lottery revenue allocations to fund 80% of the annual debt service on all debt financed SPEED projects. The universities are responsible for the remaining 20% of debt service.

**NORTHERN ARIZONA UNIVERSITY
FY 2019 – 2021 CAPITAL IMPROVEMENT PLAN**

- If the University ends the fiscal year with positive net revenue, net position at the beginning of the next fiscal year will increase.

Actual Average Annual Net Position, ⁽⁴⁾ FY12-FY16	Unaudited Current Year Net Position balance, ⁽⁵⁾ FY2017	Projected Average Annual Net Position balances ⁽⁶⁾ FY18-FY26
\$344.9M	\$283.6M	\$334.5M

4) Note: Total net position balances. Net position balances include assets (cash, accounts receivable, and inventories) less liabilities (accounts payable and other liabilities).

5) Note: The FY2017 financial data are preliminary, may not include all adjusting entries, and is unaudited.

(4, 5, 6) Note: Net position numbers are impacted beginning in FY15 for GASB 68 and FY16 for GASB 45.
