

EXECUTIVE SUMMARY

Item Name: **FY 2024 – 2027 Capital Improvement Plan (ASU)**

 Action Item

Requested Action: Arizona State University (ASU) asks the board to approve its FY 2024 – 2027 Capital Improvement Plan (CIP), which includes two FY 2024 first-year projects totaling \$97,165,000, as described in this executive summary.

Strategic Alignment with the University’s Institutional Priorities

- ASU continues to make meaningful progress in its evolution as a model for 21st century higher education, dedicated to access, excellence and impact. In keeping with the ambitious trajectory reflected in the ASU Strategic Enterprise Framework and the ASU Campus Master Plan, the projects proposed in this FY 2024 – 2027 CIP focus strongly on addressing the need for sustainable facilities and infrastructure that support the achievement of our institutional mission and goals.
- Thoughtful and productive investment in the university's facilities and infrastructure is vital to the success of current and future ASU students and supports the key elements of ASU’s Strategic Enterprise Framework, including to:
 - Enhance the university graduation rate to greater than 85 percent and more than 40,000 graduates
 - Attain national standing in the learning and post-graduation outcomes for students in all colleges and schools
 - Enhance our local impact and social embeddedness
 - Enhance research competitiveness to more than \$1 billion in annual research expenditures by 2027.
- For this CIP, ASU has identified two projects as its first-year priorities. These priorities include the construction of a new utility power plant as well as the relocation of the University Athletics Tennis and Track and Field programs to the new facilities at the ASU Athletic Village on the Tempe Campus. The projects total \$97,165,000 in estimated costs. Project descriptions included in the university’s one-year capital plan for FY 2024 are outlined in Table 1.
- This CIP also includes a FY 2024 Building Renewal request totaling \$68,459,758. This Building Renewal request was computed using the Joint Committee on Capital Review-approved formula, along with Arizona Board of Regents direction.

EXECUTIVE SUMMARY

- The FY 2024 – 2027 CIP, as well as the active capital projects being advanced through our Campus Master Plan, reflects the physical manifestation of ASU’s realization of the *New American University* and its steadfast commitment to serve the people of Arizona.

Capital Improvement Plan One- and Three-Year Forecast

- **One-Year Capital Plan for FY 2024:** ASU presents 2 projects as its FY 2024 priorities in this CIP. The projects total \$97,165,000 in estimated costs. Descriptions for these projects are included below in Table 1. Additional information on these projects is included in the *FY 2024 Project Descriptions* section of the CIP.

**Table 1
Capital Improvement Plan – FY 2024 Projects**

Priority	Campus	Project Name	Project Description	Funding Method	Estimated Total Costs
1	Tempe	District Utility Plant	This project for a new district utility plant adjacent to the Mill Avenue Parking Structure will provide additional electrical, chilled and heated water capacity to meet the current and future needs of surrounding campus facilities that support the advancement of the university's academic and research initiatives.	System Revenue Bonds	\$ 52,165,000
2	Tempe	University Athletic Village Master Plan Tennis, Track and Field Facilities	This project will include site improvements and new construction for tennis, track and field facilities to accommodate the relocation of existing tennis courts, competition fields, grandstands and athletic facilities to the ASU East Athletic Village within the Novus Innovation Corridor.	System Revenue Bonds	\$ 45,000,000
State Appropriation (SAP)					\$0
General Fund, Debt Service (GFA)					\$0
System Revenue Bonds (SRB)					\$97,165,000
Lottery Revenue Bonds (LRB)					\$0
Certificates of Participation (COPS)					\$0
Federal Funds (FEDF)					\$0
Gifts (GIFT)					\$0
TOTAL COST: FY 2024					\$97,165,000

- **Three-Year Capital Plan for FY 2025 – 2027:** Multiple high-priority projects are currently in the early planning stages for FY 2025 – 2027. Descriptions for these projects are included below in Table 2.

EXECUTIVE SUMMARY

**Table 2
Capital Improvement Plan – FY 2025 – 2027 Projects**

Campus	Project Name	Project Description
1	All Building and Infrastructure Enhancements and Modifications	These projects encompass enhancements and modifications to ASU buildings and infrastructure that will address the university's primary areas of concern on all campuses. These concerns include, but are not limited to, life safety deficiencies; aging mechanical, critical building and utility distribution systems; and timeworn and unreliable elevators and roofs. The projects will ensure the efficient, reliable and safe operation of essential university infrastructure and facilities, including those that must continue without interruption to support critical academic and research initiatives.
2	All Classroom and Academic Renovations Bundle	These projects will renovate existing classrooms, create new classrooms of various sizes and add smaller instructional spaces at all campuses. Building components such as: heating, ventilation and air conditioning systems, plumbing and electrical systems, flooring, ceilings, roofs, windows, doors, internal walls, partitions and elevators may be upgraded in this project bundle. These projects are essential to meeting the growing demand for space to support student enrollment growth and the evolving program needs associated with new fields of learning and teaching methodologies.
3	All Research Laboratory Renovations Bundle	These projects will renovate laboratories and associated spaces to meet the requirements of the university's new and current research initiatives. Many existing laboratories and building systems are inadequate due to age and the requirements of emerging technologies. Multiple wet and dry laboratory spaces, as well as infrastructure and building systems, will be upgraded to maximize adaptable and flexible technologies. These planned renovations will ensure the university's facility systems meet the growing demands of its research initiatives and comply with code requirements.
4	All IT Infrastructure Bundle	This project bundle will provide improvements to all campuses, with a focus on three fundamental network and infrastructure elements: Network Infrastructure and Capacity; Research and High-Performance Computing; and Facilities, Building Automation, Energy Management and Telemetry. These improvements will enable the university to meet growing demand for increased capacity, speed, reliability and resilience.
5	Other Discovery Oasis Building 2	This will mark the second building in North Phoenix at the Health Future Center, which represents a partnership between ASU and the Mayo Clinic to provide leading-edge facilities for biomedical engineering, medical research as well as academic and instructional support spaces. The new state-of-the-art facility will enable ASU to continue its mission of advancing research and discovery within the healthcare industry.
6	Mesa Mesa City Center Academic Building	This multi-level facility will provide needed classroom, instructional and office spaces to support the growth of academic programs and student enrollment as part of ASU's continued development throughout downtown Mesa.
7	Tempe Tempe Campus Student Housing Project	This project will construct a student housing facility to address the needs of freshman, upper division and graduate students for quality housing on the growing Tempe Campus as a result of increased enrollment. The building will also feature academic and learning spaces as well as common areas for students.
8	Polytechnic Student Union Expansion	This project will renovate the ground floor of the Student Union to accommodate the demand for student services and additional common areas. It will include lounges, meeting spaces, event space, dining options and open seating as well as student services and outdoor amenity spaces will be expanded to enhance the student experience.
9	Tempe Utility Infrastructure Renewal	This project will provide an innovative, sustainable, eco-friendly and needed local source for campus hot water generation. The conversion from a centralized fossil gas-burning steam distribution system to a decentralized electricity-powered hot water system will support the university's achievement of its renewable energy goals, optimize water usage and reduce deferred maintenance.
10	Downtown Phoenix DPC Research Building	This project will create new research facility at the Downtown Phoenix Campus to provide additional laboratory and associated support space to accommodate the growing demands of the university's research initiatives.
11	Tempe Tempe Research Building	This project will provide support services for the university's research community that addresses demand for special storage, including but not limited to, hazardous materials as well as updated shop spaces for fabrication. The new facility will enable the colocation and growth of these fabrication spaces to create better-utilized and more efficient services to advance the university's academic and research initiatives.
12	Tempe Laboratory Complex Modernization	These projects will update and upgrade aging infrastructure and building systems in existing buildings to support research labs and research support space. This will increase reliability of utility services and expand research capabilities in existing buildings that cannot currently support existing and future research initiatives. The intention is upgrade the core and shell (electrical, exhaust, plumbing, HVAC, etc.) of existing buildings to support the lab spaces.

EXECUTIVE SUMMARY

**Table 2 (continued)
 Capital Improvement Plan – FY 2025 – 2027 Projects**

Campus	Project Name	Project Description
13	Tempe Music Building Renovation	This project will renovate the aging Music Building, constructed in 1971, to ensure its reliable, efficient and safe operation. That includes the replacement of the roof, windows and storefront entrances; the replacement of the heating, ventilation and air conditioning systems, including the installation of new controls, relevant electrical systems and energy recovery ventilation components; and the installation of a code-compliant fire safety system. New finishes, acoustical improvements and interior repairs also are planned to support the success of the university's music programs.
14	Tempe Research Support Facility	This project will provide support services for the university's research community that addresses demand for special storage, including but not limited to, hazardous materials as well as updated shop spaces for fabrication. The new facility will enable the colocation and growth of these fabrication spaces to create better-utilized and more efficient services to advance the university's academic and research initiatives.
15	West Chiller Replacement	This project will replace the existing 30-year-old Chiller Plant to better provide chilled water to meet the current and future cooling needs of surrounding campus facilities that support the advancement of the university's academic and research initiatives.
16	Tempe Tempe Campus Student Housing Project	This project will construct a mixed-use student housing facility to address the needs of freshman, upper division and graduate students for quality housing on the growing Tempe Campus. The building will include academic, maker and retail space to enable student success.

Project Delivery Method and Process

- The project delivery method for each project in the CIP is selected based on which approach provides the most efficient and effective project delivery. The anticipated delivery method will be identified as projects are submitted in the Annual Capital Plan.

Project Status and Schedule

- Capital projects progress through the various project development phases based on a variety of factors, including the priority and need for the project and the programs it supports, as well as the availability of funding and financing. Project schedules usually are aligned with the academic calendar so that construction activity can occur during the summer break or when there is lower activity on campus. In addition, project schedules typically are developed so that projects are completed and functional in time for the beginning of a new session. Anticipated schedules are submitted in the Justification Reports, which are included for each project in the Annual Capital Plan.

Fiscal Impact and Financing Plan

- The CIP projects totaling \$97,165,000 will be debt-financed with system revenue bonds and will be amortized over an approximate 30-year term.
- The anticipated debt service for the Tempe District Utility Plant will be funded by tuition and is included in current budget planning. The debt service for the Tempe

EXECUTIVE SUMMARY

University Athletic Tennis and Track and Field Facilities will be funded by gifts, general university funds, and Athletic District revenues.

- The Annual Assessment of Debt Capacity report contained in the CIP provides a summary report of the university's ability to finance additional capital projects through the issuance of debt. Based upon the university's capital projects approved in its Annual Capital Plan and the FY 2024 One-Year Capital Plan, the highest projected debt ratio occurs in FY 2026 and is 5.3 percent excluding SPEED projects and 5.7 percent including SPEED projects.
- **Debt Ratio Impact:** The debt service associated with the FY 2024 projects will increase the debt ratio by 0.16 percent. The current debt ratio prior to these projects is 4.7 percent, excluding SPEED projects and 5.1 percent, including SPEED projects.

Occupancy Plan

- Projects included in this CIP will provide space that allows for the creation, expansion and relocation of programs. The space that the projects provide will house programs that fulfill various objectives within the university strategic plan, including academic, research and student success goals. Project justification reports that are submitted when these projects are transitioned to the Annual Capital Plan will provide additional detail on occupancy plans for the new or renovated space.

Other Projects

- ASU anticipates two third-party projects, component unit projects, and commercial long-term leases that require board approval to be entered into in the next year.

Statutory/Policy Requirements

- Pursuant to ABOR Policy 7-102.B.3, each university shall submit an annual CIP as required by state statute and board policy.
- CIPs are reviewed by the Finance, Capital and Resources Committee and approved by the board.

EXECUTIVE SUMMARY

- Approval of the CIP authorizes the university to contract for outside professional and consultant services, construction management and preconstruction services, and stie investigation and preparation.

Committee Review and Recommendation

The Finance, Capital and Resources Committee reviewed this item at its September 15, 2022 meeting, and recommended forwarding the item to the full board for approval.

Fiscal Years 2024–2027 Capital Improvement Plan

**Submitted to the
Arizona Board of Regents
September 2022**

Dear Members of the Arizona Board of Regents:

On behalf of Arizona State University, I am pleased to present the ASU FY 2024–2027 Capital Improvement Plan (CIP). ASU continues to make meaningful progress in its evolution as a model for 21st century higher education, dedicated to access, excellence and impact. The projects proposed in this CIP focus on addressing the need for sustainable facilities and infrastructure that support the achievement of our institutional charter, mission and goals.

For this CIP, ASU's FY 2024 priorities include the construction of a new utility power plant on the Tempe Campus to provide extra electrical and chilled-water capacity to existing buildings and support the development of new facilities for academic and research initiatives. New projects are also proposed for the relocation of the University Athletics Tennis and Track and Field programs to the new ASU Athletic Village on the Tempe Campus. These projects will provide our students, faculty and staff with high-quality facilities and infrastructure to enable their success and support the key elements of ASU's Strategic Enterprise Framework. More details can be found in the Four-Year Capital Improvement Plan and the FY 2024 Project Description tabs.

Other high-priority projects that are currently in the early planning stages for fiscal years 2025-2027 are also detailed herein. These projects include new construction for student housing, academic, research and laboratory spaces as well as other planned future investments. Additionally, needed enhancements and modifications to ASU buildings and infrastructure, renovations to classrooms and research laboratories, and improvements to the university's information technology infrastructure also are planned on all campuses.

This FY 2024–2027 CIP, as well as the active capital projects already being advanced through our Campus Master Plan, reflect the physical manifestation of ASU's realization of the New American University and its steadfast commitment to serve the people of Arizona.

A handwritten signature in blue ink that reads "Michael M. Crow". The signature is fluid and cursive, with the first name "Michael" being the most prominent part.

FY 2024–2027 Capital Improvement Plan

Deferred Maintenance Report

Arizona State University
 FY 2024–2027 Capital Improvement Plan
Deferred Maintenance Report

1. Definition and explanation of Deferred Maintenance for the Arizona University System
 - Facility condition deficiencies identified through physical inspections where deterioration and/or life safety concerns are evident and affect the proper functioning of the facility.
 - Typical building components with deficiencies include: heating, ventilation and air conditioning; roofs; flooring; walls; ceiling and lighting; electrical; and plumbing. Deferred maintenance does not include routine maintenance needs, although failure to adequately fund routine maintenance eventually will add to the deferred maintenance backlog. Also, deferred maintenance does not include infrastructure, Americans with Disabilities Act upgrades, or other non-mandated code requirements that have been established since the building was constructed, unless these deficiencies are included as part of an overall upgrade. A planned and funded capital renewal program is necessary to reverse the deferred maintenance backlog and extend the useful life of the facilities. Deferred maintenance figures include labor, material and indirect costs, such as architectural services. Facilities scheduled for demolition during the next fiscal year are not included in deferred maintenance figures and do not generate State-appropriated building renewal funds.

2. Deferred Maintenance Status

	<u>June 30, 2021</u>	<u>June 30, 2022</u>
• Estimated Deferred Maintenance (academic/support)	\$245,134,029	\$251,076,927
Facility Condition Index (academic/support).....	0.04	0.04
• Estimated Deferred Maintenance (auxiliary)	\$37,101,802	\$29,697,784
Facility Condition Index (auxiliary).....	0.01	0.01

 - The Facilities Condition Index (FCI) is a ratio of the estimated deferred maintenance to the estimated building replacement value.
 - Building replacement value calculations are based on gross square footage assessments.

3. Action Plan to Address the Deferred Maintenance in FY 2023 and 2024
 - This university intends to pursue preventive maintenance to avoid the development of costly maintenance conditions as budget allows. Through a cooperative effort among trades personnel, conditions with potential for costly maintenance work will be detected in the early stages and scheduled for prompt preventive measures.
 - Bond proceeds, along with normal building maintenance accounts, will supplement requested Building Renewal funding, enabling the university to undertake deferred projects of significant scope.

4. Methodology*
 - Detailed building examinations are performed by the Deferred Maintenance inspection team, which completes on-site building system examinations for one-fourth of the existing facilities each year. These inspections result in identifying the overall building condition and generating estimated deferred maintenance figures. For those buildings inspected during previous years, deferred maintenance estimates will be updated annually by reviewing completed facilities improvement projects.

*Note-A Tri-University task force has been formed to address methodology and estimating differences.

Building Inventory Report

Arizona State University
 FY 2024-2027 Capital Improvement Plan
Building Inventory Summary
June 2022

Category	Academic/Support Facilities (1)	Auxiliary Facilities (1)	Total
Number of Facilities (2)	230	152	382
GSF	13,272,314	11,998,603	25,270,917
Estimated Replacement Value	\$6,409,114,838	\$3,685,157,578	\$10,094,272,416
FY 2024 Building Renewal Request (3)	\$68,459,758	Not applicable	\$68,459,758

Notes:

- 1) Auxiliary enterprise facilities (essentially self-supporting entities), Related Entity and Partnership buildings do not qualify for state-appropriated Building Renewal Funding.

- 2) There are currently 18 facilities that contain both "Academic/Support" and "Auxiliary" space. For the purposes of the Building Inventory Summary, those facilities are counted in the "Number of Facilities" row, in either "Academic/Support" or "Auxiliary" columns, depending on which GSF is higher. In the "GSF" row, the GSF for those facilities was broken down into "Academic/Support" and "Auxiliary" and included in the appropriate total.

- 3) Building Renewal is computed each year following a standard formula that considers the building age, current replacement value, and renovation/renewal history. The computed figure is the basis of the University's FY 2024 Building Renewal Request.

Building Inventory Report
June 2022

FOOTNOTES:

- (a) List of all facilities owned by Arizona State University, related entities, and partners.
- (b) Adjusted Construction Date: As adjusted for applicable projects using the Sherman-Dergis method.
- (c) Estimated replacement values are calculated using the Regents' Construction Cost Control and Professional Fee Guidelines.
- (d) The Building Renewal request is calculated using the Sherman-Dergis formula with direction from the Regents' central office.
- (e) Academic/Support building inspections are completed by Asset Management within a four-year cycle.
- (f) The following auxiliary facilities are eligible for 50% building renewal funding:
 -Building 59, Sun Devil Stadium
- (g) ASU Polytechnic Housing, totaling 534 units and excluding all dormitory type facilities which are addressed individually are distributed as follows:

	GSF	Units	GSF Totals
North Desert Village	1,659	85	141,015
	2,078	3	6,234
	2,104	1	2,104
	2,121	4	8,484
	2,748	1	2,748
Total		94	160,585
West Desert Village	1,213	70	84,910
Total		70	84,910

	GSF	Units	GSF Totals
South Desert Village	1,212	137	166,044
	1,531	174	266,394
	1,544	38	58,672
	1,560	21	32,760
Total		370	523,870

- (h) The Arizona Biomedical Collaborative (ASU and UArizona) and Fulton Center's estimated replacement value and gross square footage reflects the portion that ASU owns or leases.
 Arizona Biomedical Collaborative = 86,706 total square footage. Fulton Center = 163,959 total square footage.
- (i) Building is condemned.
- (j) Hayden Hall (014), Hayden Hall East (014E) and Hayden Hall West (014W) deferred maintenance estimates are combined in the Hayden Hall (014) deferred maintenance value.

Arizona State University
FY 2024–2027 Capital Improvement Plan

Lease Report

Arizona State University
 FY 2024–2027 Capital Improvement Plan
Summary of Leases in Effect During FY 2022

	Number of Leases	Gross Square Feet	Acres	Lease \$/Year Receipt (R) Expenditures (E)	Number Of Leases Continued	Number Of Leases Renewed	Number Of Leases Terminated	Number Of Leases New
ASU as Lessor	66	508,165	440.96	\$ 19,591,421	37	13	5	11
ASU as Lessee	60	3,790,522	59.08	\$ 67,553,314	28	14	7	11

Notes:

- (1) The Board has delegated to the universities the responsibility to establish leases (including amendments and renewals) without specific Board approval unless:
 - As lessor (university leasing to others) - the lease including all renewals runs longer than 10 years (120 months), or the annual base lease amount exceeds \$1,000,000, or the rental rate is less than the fair market value of the property.
 - As lessee (university leases from others) - the lease exceeds 5 years (60 months), renewal options exceed an additional 5 years (60 months), the total annual lease amount exceeds \$1,000,000, the rental rate exceeds fair rental value, or funds are not available.
- (2) Any leases requiring Arizona Board of Regents approval will be brought forward as separate agenda items.

Capital Project Categories

Project Types

New Construction

CODE	TITLE	DESCRIPTION
NAS	Academic and Support Space	The creation of a new academic, research or other support facility or the addition, expansion, or extension of an existing academic or support facility that adds to the building's overall gross square footage. This category includes building demolitions where such demolition is necessary for the construction of a new building or facility.
NAX	Auxiliary	The creation of a new auxiliary facility or the addition, expansion or extension of an existing auxiliary facility that adds to the building's overall gross square footage. This category includes building demolitions where such demolition is necessary for the construction of a new building or facility.
NIN	Infrastructure	Construction or expansion of new basic support systems and components that deliver to buildings such common utility services as heating and cooling, water and sewer, electricity, gas, and telecommunication. This category also includes support systems and components, including but not limited to, roadways, sidewalks, parking lots, external lighting, landscaping and irrigation systems where such systems and components are not part of another new construction project.

Capital Renewal

CODE	TITLE	DESCRIPTION
CAS	Academic and Support Space	The reconfiguration of existing academic, research or other support space, including the alteration or upgrade of major systems, components and fixed equipment that extends the useful life of the building or a portion of the building. This reconfiguration may be necessitated by, but not limited to, facility obsolescence, change in use, code requirements or physical plant wear-out.
CAX	Auxiliary	The reconfiguration of existing auxiliary space, including the alteration or upgrade of major systems, components and fixed equipment that extends the useful life of the building or a portion of the building. This reconfiguration may be necessitated by, but not limited to, facility obsolescence, change in use, code requirements or physical plant wear-out.

Arizona State University
 FY 2024–2027 Capital Improvement Plan
Capital Project Categories

Capital Renewal (continued)

CODE	TITLE	DESCRIPTION
CIN	Infrastructure	Renewal or replacement of existing basic support systems and components that deliver to buildings such common utility services as heating and cooling, water and sewer, electricity, gas or telecommunication. This category also includes support systems and components, such as roadways, sidewalks, parking lots, external lighting, landscaping and irrigation systems, where such systems and components are not part of another capital renewal project.
CAD	Accessibility	Necessary for compliance with the American with Disabilities Act and other measures to make facilities accessible for individuals with disabilities. This category addresses issues that substantially limit one or more life activities, such as exterior building access, doorway widths, toilet facilities, drinking fountains, special signage, telecommunication, assistive listening systems and path of travel.
CLS	Life Safety/Code Compliance	Necessary to eliminate a hazardous condition that threatens life or property or is necessary to comply with state and federal regulations, including, but not limited to, fire safety, code compliance and environmental regulations.
CMM	Major Maintenance/ System Replacement	Renewal and replacement of capitalized building systems and components due to the end of their useful life, physical plant wear-out or obsolescence. This category may include, but not be limited to, the renewal of fixed equipment, roof replacement, heating, ventilation and air conditioning (HVAC) systems, plumbing systems, electrical systems, window systems, flooring and elevators.
CME	Major Maintenance-Energy Conservation/Cost Savings	Projects that will achieve savings in current energy consumption or will provide substantial savings in operating costs, including, but not limited to, the upgrade of HVAC systems, retrofit of lighting fixtures and installation of variable drive motors, soft start motors and energy management systems.
COT	Other Capital Renewal	Other improvements and expenses related to existing facilities and infrastructure that is not included under other capital renewal categories.
OTH	Other	Other improvements to facilities and infrastructure that is not included under the new construction or capital renewal categories. Examples in this category may include, but are not limited to, the completion of shell space and facility-related studies.

 FY 2024-2027 Capital Improvement Plan
Three-Year Capital Plan (FY 2025-2027)

Campus		Project Name	Project Description
1	All	Building and Infrastructure Enhancements and Modifications	These projects encompass enhancements and modifications to ASU buildings and infrastructure that will address the university's primary areas of concern on all campuses. These concerns include, but are not limited to, life safety deficiencies; aging mechanical, critical building and utility distribution systems; and timeworn and unreliable elevators and roofs. The projects will ensure the efficient, reliable and safe operation of essential university infrastructure and facilities, including those that must continue without interruption to support critical academic and research initiatives.
2	All	Classroom and Academic Renovations Bundle	These projects will renovate existing classrooms, create new classrooms of various sizes and add smaller instructional spaces at all campuses. Building components such as: heating, ventilation and air conditioning systems, plumbing and electrical systems, flooring, ceilings, roofs, windows, doors, internal walls, partitions and elevators may be upgraded in this project bundle. These projects are essential to meeting the growing demand for space to support student enrollment growth and the evolving program needs associated with new fields of learning and teaching methodologies.
3	All	Research Laboratory Renovations Bundle	These projects will renovate laboratories and associated spaces to meet the requirements of the university's new and current research initiatives. Many existing laboratories and building systems are inadequate due to age and the requirements of emerging technologies. Multiple wet and dry laboratory spaces, as well as infrastructure and building systems, will be upgraded to maximize adaptable and flexible technologies. These planned renovations will ensure the university's facility systems meet the growing demands of its research initiatives and comply with code requirements.
4	All	IT Infrastructure Bundle	This project bundle will provide improvements to all campuses, with a focus on three fundamental network and infrastructure elements: Network Infrastructure and Capacity; Research and High-Performance Computing; and Facilities, Building Automation, Energy Management and Telemetry. These improvements will enable the university to meet growing demand for increased capacity, speed, reliability and resilience.
5	Other	Discovery Oasis Building 2	This will mark the second building in North Phoenix at the Health Future Center, which represents a partnership between ASU and the Mayo Clinic to provide leading-edge facilities for biomedical engineering, medical research as well as academic and instructional support spaces. The new state-of-the-art facility will enable ASU to continue its mission of advancing research and discovery within the healthcare industry.
6	Mesa	Mesa City Center Academic Building	This multi-level facility will provide needed classroom, instructional and office spaces to support the growth of academic programs and student enrollment as part of ASU's continued development throughout downtown Mesa.
7	Tempe	Tempe Campus Student Housing Project	This project will construct a student housing facility to address the needs of freshman, upper division and graduate students for quality housing on the growing Tempe Campus as a result of increased enrollment. The building will also feature academic and learning spaces as well as common areas for students.
8	Polytechnic	Student Union Expansion	This project will renovate the ground floor of the Student Union to accommodate the demand for student services and additional common areas. It will include lounges, meeting spaces, event space, dining options and open seating as well as student services and outdoor amenity spaces will be expanded to enhance the student experience.
9	Tempe	Utility Infrastructure Renewal	This project will provide an innovative, sustainable, eco-friendly and needed local source for campus hot water generation. The conversion from a centralized fossil gas-burning steam distribution system to a decentralized electricity-powered hot water system will support the university's achievement of its renewable energy goals, optimize water usage and reduce deferred maintenance.

Arizona State University
 FY 2024-2027 Capital Improvement Plan
Three-Year Capital Plan (FY 2025-2027)

	Campus	Project Name	Project Description
10	Downtown Phoenix	DPC Research Building	This project will create new research facility at the Downtown Phoenix Campus to provide additional laboratory and associated support space to accommodate the growing demands of the university's research initiatives.
11	Tempe	Tempe Research Building	This project will provide support services for the university's research community that addresses demand for special storage, including but not limited to, hazardous materials as well as updated shop spaces for fabrication. The new facility will enable the colocation and growth of these fabrication spaces to create better-utilized and more efficient services to advance the university's academic and research initiatives.
12	Tempe	Laboratory Complex Modernization	These projects will update and upgrade aging infrastructure and building systems in existing buildings to support research labs and research support space. This will increase reliability of utility services and expand research capabilities in existing buildings that cannot currently support existing and future research initiatives. The intention is upgrade the core and shell (electrical, exhaust, plumbing, HVAC, etc.) of existing buildings to support the lab spaces.
13	Tempe	Music Building Renovation	This project will renovate the aging Music Building, constructed in 1971, to ensure its reliable, efficient and safe operation. That includes the replacement of the roof, windows and storefront entrances; the replacement of the heating, ventilation and air conditioning systems, including the installation of new controls, relevant electrical systems and energy recovery ventilation components; and the installation of a code-compliant fire safety system. New finishes, acoustical improvements and interior repairs also are planned to support the success of the university's music programs.
14	Tempe	Research Support Facility	This project will provide support services for the university's research community that addresses demand for special storage, including but not limited to, hazardous materials as well as updated shop spaces for fabrication. The new facility will enable the colocation and growth of these fabrication spaces to create better-utilized and more efficient services to advance the university's academic and research initiatives.
15	West	Chiller Replacement	This project will replace the existing 30-year-old Chiller Plant to better provide chilled water to meet the current and future cooling needs of surrounding campus facilities that support the advancement of the university's academic and research initiatives.
16	Tempe	Tempe Campus Student Housing Project	This project will construct a mixed-use student housing facility to address the needs of freshman, upper division and graduate students for quality housing on the growing Tempe Campus. The building will include academic, maker and retail space to enable student success.

FY 2024–2027 Capital Improvement Plan

FY 2024 Project Descriptions

Arizona State University
FY 2024-2027 Capital Improvement Plan
One-Year Capital Plan (FY 2024)

Project Description

Project Name: District Utility Plant

Priority: 1

Description:

This project for a new district utility plant adjacent to the Mill Avenue Parking Structure will provide chilled and heated water to meet the current and future needs of surrounding campus facilities that support the advancement of the university's academic and research initiatives. It will also support the West Substation, which is nearing capacity, and expand the chilled water and steam distribution lines to new facilities.

Justification:

This project is needed to support continued growth of the Tempe Campus, and more specifically the western side of campus, due to a limited supply of cooling and electrical capacity along with increased demands spurred by new developments planned in the area. This will expand existing electrical and cooling capacity, remove bottlenecks from the chilled water distribution network, support electrical and cooling needs from new developments and aligns with carbon neutrality goals.

Estimated Project Costs: \$ 52,165,000

Funding Source: System Revenue Bonds

Notes
¹ Land Acquisition: land purchase price; Construction: site development, construction, fixed equipment, utility extension, parking and landscaping; A&E Fees: architect and engineering and other professional services; FF&E: furniture, fixtures and equipment; Other: owner contingencies, telecommunications/IT, parking replacement, landscaping, surveys and tests, asbestos abatement, move-in costs, project management fee, financial services fee, facilities management support, state risk management insurance, building commissioning, keying, and advertising.

Arizona State University
FY 2024-2027 Capital Improvement Plan
One-Year Capital Plan (FY 2024)

Project Description

Project Name: University Athletic Village Master Plan Tennis, Track and Field Facilities

Priority: 2

Description:

This project will include site improvements and new construction for tennis, track and field facilities to accommodate the relocation of existing tennis courts, competition fields, grandstands and athletic facilities to the ASU East Athletic Village within the Novus Innovation Corridor. New concession stands, restrooms, locker rooms and training areas will also be added. The new facilities will be designed to enhance the experience of students and student-athletes, as well as the university's local impact and social embeddedness.

Justification:

This project will relocate the University Athletics Tennis, Track and Field programs to the new ASU Athletic Village, joining other recently expanded programs for lacrosse, soccer and beach volleyball. The relocation will permit new developments anticipated within the Novus Innovation Corridor, a 10-million-square-foot mixed-use project being developed through a public/private partnership between ASU and Catellus Development Corporation, that drives ASU's commitment to advancing research and discovery.

Estimated Project Costs: \$45,000,000

Funding Source: System Revenue Bonds

FY 2024–2027 Capital Improvement Plan

Debt Report

Arizona State University
 FY 2024-2027 Capital Improvement Plan
Annual Assessment of Debt Capacity
 (\$ in Millions)

This summary, Annual Assessment of Debt Capacity, demonstrates Arizona State University’s ability to finance additional capital investment through debt instruments.

- ASU must demonstrate its ability to service debt (pay principal and interest) for projects proposed for debt financing. The Financial Services Office projects revenues and expenditures through FY 2031 using historical data from the audited financial statements and cash flow projections from various internal sources. Beginning with FY 2024, revenue assumptions include, over the long run, an average increase of 6.5 percent in tuition and fees, inclusive of enrollment and rate change.
- ASU’s outstanding debt at the end of FY 2022 is \$2.1 billion at par for bonds and certificates of participation (COPs). Total FY 2022 debt service for system revenue bonds and COPs was \$156.0 million, or 4.7 percent of total projected expenditures.
- Based upon ASU’s projects in the first year of the FY 2024-2027 Capital Improvement Plan (CIP) and Annual Capital Plan (ACP), the projected outstanding debt in the year with the highest debt ratio (FY 2026) is approximately \$2.4 billion at par, with total annual debt service of \$212.9 million or 5.3 percent of total projected expenditures. The 5.3 percent ratio is within the range used by bond rating firms to judge an institution’s creditworthiness to service debt.

<i>Existing Debt Service as a Percentage of Total FY 2022 Expenditures</i>	<i>Projected Debt Service¹ as a Percentage of Total Expenditures excluding/including SPEED² project financings</i>
4.7% ⁴	5.3% ³ / 5.7% ³

- Note 1: Projections are based on implementation of the current ACP and the first year of the CIP
- Note 2: SPEED (Stimulus Plan for Economic and Educational Development) was authorized by Arizona Revised Statute 15-1682.03. The statute authorizes the use of state lottery revenue allocations to fund up to 80 percent of the annual debt service on all SPEED projects. The University is responsible for at least 20 percent of annual debt service.
- Note 3: These represent the maximum debt service percentages through FY 2031. Statutory maximum is 8 percent.
- Note 4: FY2022 financial data is preliminary and unaudited at the time this report was prepared.
