Statement from ABOR President Klein Regarding Trump Decision to Rescind DACA

“The Arizona Board of Regents has consistently called upon President Trump and Congress to enact meaningful immigration reform that provides legal certainty for students who are DACA recipients. Today, through the President’s action, Congress has a window of time to find a sensible and humane legislative solution to shield our DACA students from deportation and enable their future in our country. We encourage them to act swiftly and justly.

“The Arizona Board of Regents is committed to making a university education more affordable while promoting success for all aspiring students. The board will continue to work with Arizona’s congressional delegation to encourage new laws to allow Arizona DACA students legal certainty regarding their immigration status so that these students can continue their education uninterrupted and without fear.”
