

FISCAL YEAR 2021

FALL ENROLLMENT REPORT

ABOUT THIS REPORT

This report provides enrollment data for students attending Arizona’s public universities in the 2020-21 academic year and updates multi-year enrollment trends. Twenty-first day headcount and 45th-day full-time equivalent (FTE) enrollment data is provided for each university and their campuses.

Within higher education, enrollment is generally expressed in student headcount or FTE terms. Student headcount is reported for the purposes of determining educational scale and measurement against metric goals. Headcount is defined as the number of full- or part-time individual students registered at a university for at least one credit hour on the 21st day of instruction. Student headcount is considered a broad measure of a university’s educational reach, reflecting the number of individuals the university is educating at one time.

Student FTE has historically been used for calculating state funding and to determine how university revenues are budgeted among colleges, schools, departments and programs. FTE is generally defined as a measurement of credit hours equal to one full-time student enrolled for one academic year. Arizona’s student FTE enrollment is computed according to A.R.S. §15-1661 and board policy and guidelines.

The enrollment analysis within this report uses student headcount numbers unless specifically identified as using an FTE calculation. Student enrollment is counted across all education delivery modalities, including online and extended campuses. The report further disaggregates the data into undergraduate, graduate and total enrollment. Data is presented by demographics, full-time and part-time student enrollment semester credit hours, and residency status.

ABOUT THE ARIZONA BOARD OF REGENTS

The Arizona Board of Regents is committed to ensuring access for qualified residents of Arizona to undergraduate and graduate institutions; promoting the discovery, application, and dissemination of new knowledge; extending the benefits of university activities to Arizona’s citizens outside the university; and maximizing the benefits derived from the state’s investment in education.

EXECUTIVE SUMMARY

Postsecondary enrollment is an integral component of advancing the state's goal to increase educational attainment and is a key focus for the board and universities as the state transitions to an economy where the majority of job skills demand education past high school, and most jobs that pay well require a four-year college degree.¹ Reporting enrollment is a necessary step in ensuring that Arizona's public universities are meeting their mission to provide access and produce the number of degrees required to support and improve Arizona's economy.

In fall 2020 – which falls within fiscal year 2021 – enrollment at Arizona's public universities increased with notable growth in the number of students taking online programs. In contrast, on campus traditional immersion student enrollment has slowed. There are several reasons for the slower on-campus enrollment growth, including Arizona's demographic shift and the global COVID-19 pandemic.

COVID-19 Pandemic Impacted Arizona Public Universities' Enrollment and Student Mix

In the shadow of the COVID-19 pandemic, Arizona's public universities' total enrollment increased at a slower rate than in previous years. The impact of COVID-19 on Arizona's public universities enrollment was, however, less severe than at many other institutions.² During fall 2020, total student enrollment at Arizona's public universities was 204,460, a 4.5 percent increase over fall 2019. Much of that increase was due to substantial increases in online enrollment.

The pandemic impacted the universities' student enrollment mix – the number of international, out-of-state and in-state students that enrolled. The universities saw increases in their online programs but slower enrollment in out-of-state and international immersion student – traditional students taking in-person classes.

Arizona's Demographic Changes Pose Challenges to Future Enrollment Increases

In addition to the immediate enrollment shifts resulting from the current pandemic, future undergraduate enrollment increases may become progressively more difficult as a result of declining Arizona birth rates during the Great Recession. Total K-12 enrollment is projected to be flat for the next few years and then begin to decline. Depending on net migration, the decline is expected to occur no later than 2025.³ Without increases in the percentage of Arizona high school graduates that choose to enroll in a four-year degree program, demographic reductions may impact Arizona's long-term educational attainment levels.

Declining enrollment impacts the universities' financial models. As state support per student has been reduced, Arizona's public universities funded a greater percentage of their

operations through tuition and other entrepreneurial sources of revenue. Arizona's divestment in public higher education has resulted in the board and universities focusing on the number of students enrolled at each institution as well as the mix of resident, non-resident and international students to ensure the universities remain financially strong. The slowing enrollment and the change in enrollment mix places greater financial pressure on the universities.

Total Enrollment Continues to Climb Due to Online Enrollment

Online degree program students now comprise 32.5 percent of the system's total enrollment. At Arizona State University, which has the largest online enrollment, approximately one in two students is enrolled in an online program. This does not include the number of traditional immersion students that are taking asynchronous or synchronous courses due to the pandemic. Similarly, approximately one in two of Northern Arizona University graduate students is completing an online program.

Online education at the University of Arizona is anticipated to continue to expand in 2021 and beyond with the university's affiliation with the University of Arizona Global Campus, an independent nonprofit corporation that will operate as a separate institution accredited by the WASC Senior College and University Commission. University of Arizona Global Campus is projected to enroll 35,000 students next year. These online enrollment increases may be accelerating due to the global pandemic, but Arizona's public university system has seen significant growth in online programs for years, largely fueled by ASU online.

Since fiscal year 2017, online degree program enrollment within Arizona's public universities increased by 98.7 percent. In contrast, the system's traditional on-campus enrollment growth has slowed. There are 116,162 traditional immersion undergraduates enrolled on-campus – a 2.0 percent year-over-year decrease. On-campus graduate degrees also saw a 3.8 percent decrease from fiscal year 2020.

Enrollment of Historically Underrepresented Populations Continues to Increase

Enrollment of historically underrepresented populations – Blacks, Hispanics and Native Americans – has increased by 8.9 percent from fall 2019, continuing a trend of continuous enrollment growth. In fiscal year 2021, 7,923 Black undergraduate students were enrolled in Arizona's public universities. Arizona's public universities also enrolled 41,904 Hispanic undergraduate students and 2,280 Native American undergraduates.

Due to the continued increase in enrollment of Hispanic undergraduate students, UA Arizona is currently designated a Hispanic-Serving Institutions (HSI) by the U.S Department of Education. NAU's Yuma location is also currently designated an HSI and NAU's Flagstaff campus is on track to receive this status in the next round of HSI designations. The designation is awarded to institutions with undergraduate FTE enrollment that is made up of at least 25 percent Hispanic students.

KEY TAKEAWAYS

- In fall 2020, 204,460 students enrolled in Arizona’s public universities. This is the largest enrollment in Arizona’s public universities history, but the current pandemic and future demographic trends pose challenges to continued efforts to increase enrollment and educational attainment.
- Fiscal year 2021 enrollment increased 4.5 percent year-over-year. Much of the enrollment increase was in online programs.
- All three of the universities have seen online student enrollment growth, but the growth has been especially significant at ASU, which now enrolls 53,993 online students. The universities’ 66,421 online students comprise 32.5 percent of enrollment.
- Arizona public universities first-time student enrollment declined year-over-year. First-time student enrollment decreased 3.6 percent year-over-year from 28,821 in fiscal year 2020 to 27,785 in fiscal year 2021.
- On-campus undergraduate enrollment is down at all three institutions. On-campus enrollment decreased 2.0 percent year-over-year from 118,561 in fiscal year 2020 to 116,162 in fiscal year 2021.
- Arizona’s public universities saw a 1.6 percent increase in Arizona resident enrollment.
- Arizona’s public universities currently enroll 98,266 non-resident and international students, a 7.8 percent increase from fiscal year 2020.
- Enrollment of Black, Hispanic and Native American students continues to increase. Students from historically underrepresented populations currently comprise 30 percent of enrollment at the universities – an 8.8 percent increase from fall 2019 and 33.9 percent increase from fiscal year 2017. UArizona is already designated a Hispanic-Serving Institutions and NAU’s Flagstaff campus is on track to achieve HSI status in the next designation.
- The undergraduate degree program with the largest enrollment at ASU is business with 8,855 students currently enrolled, biomedical sciences at NAU with 1,146 students and psychology at UArizona with 1,822 students.
- The master’s degree program with the largest enrollment at ASU is special education with 2,426 students currently enrolled, organizational leadership at NAU with 244 students and business administration at UArizona with 506 students.
- Arizona’s public universities have approximately 4,495 students enrolled in degree programs at statewide learning centers.

ARIZONA PUBLIC UNIVERSITY ENTERPRISE ENROLLMENT TRENDS

Arizona’s public universities enrolled 204,460 students in fall 2020. This is a 4.5 percent year-over-year increase from fall 2019.

Since fiscal year 2017, undergraduate enrollment grew 17.5 percent from 140,014 to 164,543. Graduate enrollment also increased during that time - 24.3 percent from 32,118 to 39,917.

This fall, the majority of undergraduate students enrolled in Arizona’s public universities were Arizona residents. These 90,238 resident students were joined by 74,305 non-resident students of which 6,503 were international students.

Arizona State University

ASU enrolled 103,609 undergraduate students, a 7.1 percent increase of 6,883 students from fiscal year 2020. Arizona residents comprised 49.6 percent of ASU’s undergraduate students in fiscal year 2021. Of the 52,184 non-resident students enrolled, 4,337 or 8.3 percent are international students.

ASU enrolls 39.1 percent of its students in online degree programs – 18.1 of which are Arizona residents. ASU’s undergraduate online degree program enrollment was 40,485 in fall 2020, which is a 21.2 percent increase from fiscal year 2020. ASU online degree programs enrollment is comprised of three-quarters undergraduate and one-quarter graduate students with 40,485 online undergraduates and 13,508 online graduate students.

In fiscal year 2021, ASU enrolled 491 students in statewide learning centers throughout Arizona, including locations in Gila Valley, Lake Havasu and Yuma.

ASU’s undergraduate students are 54.4 percent female, and 30.9 percent are from historically underrepresented student populations – Black, Hispanic or Native American, which is a 10.3 percent enrollment increase from fiscal year 2020 and a 48.8 percentage increase over fiscal year 2017.

ASU’s graduate enrollment for this fall semester is 25,179, surpassing last year’s graduate enrollment by 1,954 students or 8.4 percent. ASU’s FTE enrollment is calculated at 117,492 – 91.2 percent of headcount enrollment.

Northern Arizona University

NAU enrolled 25,228 undergraduate students, a 4.8 percent enrollment loss (1,283 students) from fiscal year 2020. Arizona residents comprised 65.5 percent of NAU’s undergraduate students in fiscal year 2021. Of the 8,712 non-resident students enrolled, 493 or 5.7 percent are international students.

NAU enrolls 20.1 percent of its students in an online degree programs – 60.1 percent of which are Arizona residents. NAU’s online and degree programs enrollment without

personalized learning was 5,370 in fiscal year 2021, which is a 7.2 percent increase from fiscal year 2020. NAU online degree program enrollment is comprised of 70.1 percent undergraduate and 29.9 percent graduate students with 4,168 online undergraduates and 1,774 online graduate students.

Another 572 students or 9.6 percent are enrolled in NAU’s personalized learning programs. In fiscal year 2021, NAU enrolled 2,541 students in statewide learning centers with locations throughout Arizona and partnerships with every community college in Arizona.

NAU’s undergraduate students are 62.7 percent female, and 31.8 percent are from historically underrepresented student populations – Black, Hispanic or Native American - which is a 1.7 percent enrollment decrease from fiscal year 2020 and a 5.5 percentage increase over fiscal year 2017.

NAU’s graduate enrollment for this fall semester is 4,338, surpassing last year’s graduate enrollment by 116 students or 2.7 percent.

NAU’s FTE enrollment is calculated at 27,985 – 94.7 percent of headcount enrollment.

University of Arizona

UArizona enrolled 35,706 undergraduate students, a 2.3 percent enrollment increase of 808 students from fiscal year 2020. Arizona residents comprised 62.4 percent of UArizona’s undergraduate students in fiscal year 2021. Of the 13,409 non-resident students enrolled, 1,673 or 12.5 percent are international students.

UArizona enrolls 14.1 percent of its students in online degree programs – 29.2 percent of which are Arizona residents. UArizona’s online degree program enrollment was 6,486 in fiscal year 2021, which is a 44.9 percent increase from fiscal year 2020. UArizona online degree program enrollment is comprised of 57.5 percent undergraduate and 42.5 percent graduate students with 3,728 online undergraduates and 2,758 online graduate students.

In fiscal year 2021, UArizona enrolled 1,463 students in statewide learning centers throughout Arizona, including 129 at its College of Applied Science and Technology in Sierra Vista and 722 graduate students at the Phoenix Biomedical Campus. UArizona also enrolled students in Chandler, Douglas, Gilbert and Santa Cruz.

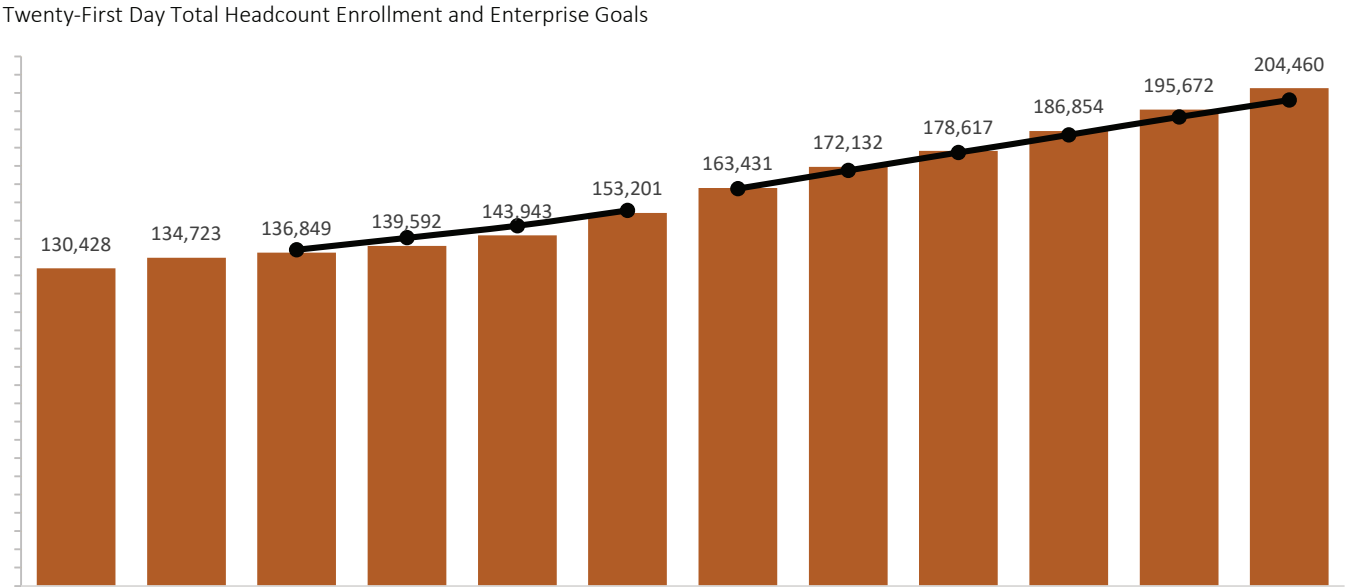

UArizona’s undergraduate students are 54.9 percent female, and 33.7 percent are from historically underrepresented student populations – Black, Hispanic or Native American - which is an 8.3 percent enrollment increase from fiscal year 2020 and a 14.3 percentage increase over fiscal year 2017.

UArizona’s graduate enrollment for this fall semester is 10,400, surpassing last year’s graduate enrollment by 310 or 3.1 percent.

UArizona’s FTE enrollment is calculated at 45,453 – 98.6 percent of headcount enrollment.

Graduate	4,803	11%	4,669	10%	9,472	21%

Note: In previous ABOR reporting, UA's medical students were excluded from 45th Day FTE enrollment values. In an effort to reflect medical students in ABOR's enrollment reporting, the 21st Day FTE medical student enrollment has been added to reported 45th Day FTE enrollment in fiscal years 2010 through 2019. Medical students are equal to one FTE in all cases.
