ANNUAL COST CONTAINMENT REPORT

**ARIZONA BOARD OF
REGENTS**

ASU ♦ NAU ♦ U of A

ABOUT THIS REPORT

Arizona Revised Statutes §15-1650.03 (B) requires the Arizona board of regents to submit a comprehensive university cost containment report by September 1, of each year for each university under its jurisdiction and shall include at least the following:

1. Historical data on tuition and mandatory fee levels and average on-campus housing and meal plan fees at the largest campus for each university during the previous fiscal year and fiscal years 1999, 2004, 2009 and 2014.
2. The number of FTES and total salaries of university employees differentiated between faculty, classified staff and administrators at each university during the previous fiscal year and fiscal years 1999, 2004, 2009 and 2014.
3. Actions taken by each university to contain costs at the university and the savings associated with those actions.
4. The allocation of faculty resources at each university based on the time needed to instruct students and to conduct other research activities.
5. The number of credit hours required for a baccalaureate degree for the previous academic year and the 2003-2004 academic year for the ten degree programs that had the largest increase in credit hours required for a baccalaureate degree between the 2003-2004 academic year and the 2017-2018 academic year, and between the previous two academic years.
6. Detailed information on nontraditional or lower-cost degree options that each university currently offers, has recently developed or is pursuing.

ABOUT THE ARIZONA BOARD OF REGENTS

The Arizona Board of Regents is committed to ensuring access for qualified residents of Arizona to undergraduate and graduate institutions; promoting the discovery, application, and dissemination of new knowledge; extending the benefits of university activities to Arizona's citizens outside the university; and maximizing the benefits derived from the state's investment in education.

¹Faculty is defined as all ranked faculty (professor, associate, assistant), other instructional faculty (instructors, lecturers) and graduate assistants/associates.

²Other includes academic and service professionals, administrative faculty, post-doctoral students, and beginning FY 2013 a new employee classification called *University Staff*.

ITEM 3

University cost containment

Actions taken by each university to contain costs at the university and the savings associated with those actions.

ACADEMIC & ADMINISTRATIVE EFFICIENCIES

ARIZONA STATE UNIVERSITY

- Reduced Study Hall learning platform operating costs — **\$1,400,000**

NORTHERN ARIZONA UNIVERSITY

- Transitioned University Facility Services Work Control Center after-hours calls to voicemail, reducing personnel services expenditures — **\$35,000**
- Moved Work Control Center platform from RingCentral to Teams, generating operational savings and a more consistent service platform — **\$8,000**
- Promoted ACH payment usage and implemented a wire transfer program to reduce voided checks, reissuances, and wiring costs (expected annual staff time, printing, and postage savings) — **\$20,000**

UNIVERSITY OF ARIZONA

- Academic college operational reductions, including the combination of the previous College of Applied Sciences into the School of Information and the College of Engineering — **\$6,100,000**

Category Subtotal: \$7,563,000

FACILITIES AND OPERATIONS

ARIZONA STATE UNIVERSITY

- Reduced and modified real estate leases — **\$1,200,000**
- Self-performance of parking lot surface maintenance — **\$190,000**
- Improved cost recovery for housing-related damage repairs through insurance claims and community damage billing — **\$116,000**
- Reduced hazardous waste disposal costs through recycling and reconditioning initiatives — **\$70,000**

NORTHERN ARIZONA UNIVERSITY

- Closed nine statewide lease locations (**\$165,200**) and reduced lease contracts at the remaining seven locations (**\$441,700**) — **\$606,900** total
- Reduced utility costs through winter break building hour adjustments and shutdown — **\$50,000**
- Closed SBS West, reducing annual utility and maintenance costs — in excess of **\$350,000/year**

ITEM 3 CONT.

- Reduced active shuttle fleet from 24 to 14 buses, lowering fuel, maintenance, and capital replacement costs — estimated **\$25,000/year** in fuel savings
- Reduced peak-hour shuttle operations from 16 to 9 buses in FY26 (further reduction to 7 buses planned for FY27); savings to be determined
- Received APS rebates for LED lighting conversion completed in 4 buildings — over **\$20,000**
- Reviewed and standardized inventory (bathroom paper products, campus-wide LED lighting, ceiling fans) — estimated **\$100,000** (paper products), **\$3,600** (freight on bulk lighting buys), and **\$50,000** (LED maintenance/replacement) in annual savings, plus **40 labor hours** saved per fan installation
- Redesigned first-floor custodial product delivery process, reducing injury risk and saving an estimated **160 labor hours** annually
- Property Surplus recycled 67,340 lbs. of metal, earning approximately **\$3,300** in revenue
- Topsoil/compost program generated approximately **\$3,200** in revenue
- Transitioned to more fuel-efficient, lower-emission vehicles, generating approximately **\$56,000** in revenue through surplus vehicle sales
- Disposal of obsolete/unused materials generated approximately **\$63,800** in revenue; departments spent approximately **\$6,800** on surplus items in lieu of new equipment purchases

UNIVERSITY OF ARIZONA

- Eliminated leased agreements — **\$1,000,000**
- Reduced annual operating and maintenance costs from the sale of two buildings — **\$800,000**

Category Subtotal: \$4,714,600 and related labor

PERSONNEL & WORKFORCE MANAGEMENT

ARIZONA STATE UNIVERSITY

- Enterprise-wide resource realignment — centrally guided reallocation of unit-level funding toward institutional priorities and financial resilience — **\$40,000,000**
- Institution-wide workforce management savings through vacant positions, staff reorganizations, salary savings, hiring discipline, and other personnel cost management initiatives — **\$4,648,000**
- Reduced out-of-state and international travel through increased use of hybrid meetings and conference participation — **\$600,000**
- Secured sponsorship support for the Eco Reps student employment program — **\$40,000**

NORTHERN ARIZONA UNIVERSITY

- Realigned campus shuttle workforce from 55 employees (10 FTE plus part-time/student staff) to 9 FTE, significantly decreasing labor costs while maintaining essential transit operations (dollar savings not separately quantified in the submission)
- Implemented a Voluntary Separation Retirement Incentive Program for eligible faculty — approximately **\$3,000,000** in annual ongoing personnel expenditure savings

ITEM 3 CONT.

UNIVERSITY OF ARIZONA

- Salary savings through optimized workforce utilization, aligning work hours with business demand (Student Union Memorial Center) — **\$1,300,000**
- Salary savings from IT centralization — streamlined organizational structure, consolidated leadership, and optimized workforce investments (University Information Technology Services) — **\$1,200,000**
- Operational budget reductions, including reductions to colleges of approximately 2% and to administrative units of just over 7% — **\$36,400,000**

Category Subtotal: \$87,188,000

PROCUREMENT AND CONTRACT MANAGEMENT

ARIZONA STATE UNIVERSITY

- Modified outreach strategies, streamlined enrollment processes, and transitioned to more cost-effective service providers — **\$1,700,000**
- Renegotiated the university-wide janitorial contract — **\$1,558,100**
- Streamlined event production and operating costs through strategic scheduling and reduced third-party contractor use — **\$1,502,000**
- Reduced noncapital equipment purchases — **\$1,500,000**
- Leveraged internal resources for traffic control, barricades, labor, and point-of-sale services in place of external providers — **\$900,000**
- Secured external funding through utility rebates and sustainability/EV grants — **\$575,900**
- Consolidated memberships, subscriptions, software licenses, dues, and procurement practices — **\$500,000**
- Secured philanthropic support from the Kemper and Ethel Marley Foundation for Garden Commons construction — **\$420,000**
- Renegotiated vendor and consulting agreements (benefits, copiers, fax, consulting) — **\$214,700**

NORTHERN ARIZONA UNIVERSITY

- Contracting, Purchasing and Risk Management (CPRM) team realized YTD negotiated contractual savings — **\$935,000**
- Strategic use of cooperative purchasing agreements (state contracts, lead agency participation) — **\$4,400,000** in savings plus **\$4,300** in revenue sharing
- Facility Services negotiated construction project contract savings — **\$1,900,000**
- Executed a new space use agreement and increased revenue under existing agreements — approximately **\$49,000/year**
- Negotiated removal of fuel-related charges and reduced split-order deliveries with a household supplies vendor — approximately **\$2,300** in fuel costs plus an estimated two weeks of staff time saved

ITEM 3 CONT.

- Risk Management secured an insurance reimbursement for a previously denied 2024 property damage claim — **\$6,500**

UNIVERSITY OF ARIZONA

- Renegotiated Source1 partnership and adjusted menu offerings, improving contract pricing, rebates, and procurement (Student Union Memorial Center) — **\$800,000**; improved cost of goods sold to 33.8% in FY26 vs. 35.7% in FY25, despite a 3% rise in the Food CPI
- Renegotiated ServiceNow contract — **\$300,000**
- Savings generated from bond refunding — **\$7,000,000**

Category Subtotal: \$24,267,800

TECHNOLOGY & PROCESS IMPROVEMENTS

ARIZONA STATE UNIVERSITY

- Developed new applications and migrated services from on-premises infrastructure to cloud platforms — **\$3,594,000**
- Reduced cybersecurity contract costs — **\$2,038,000**
- Converted EV charging infrastructure to Level 1 chargers and optimized associated cloud services — **\$870,000**
- Reduced circuit maintenance and network service provider costs — **\$368,000**
- Increased use of internal recruiting, search, and sourcing programs — **\$254,000**

NORTHERN ARIZONA UNIVERSITY

- Redesigned the technology purchase review process, improving turnaround time — approximately **1,400 staff hours** saved annually
- Leveraging AI within CPRM to validate purchase soundness, develop bid specifications, and benchmark pricing/performance — approximately **400 staff hours** saved annually
- Expanded analytical AI tools in the Comptroller's Office, automating ACFR report reconciliations and footings — **60 staff hours** saved and a one-week reduction in cycle time
- Transitioning from OnBase to ServiceNow — estimated **\$400,000** in annual savings

UNIVERSITY OF ARIZONA

- Software license reductions from updated operational procedures (Finance and Budget) — **\$1,000,000**
- Continued optimization of infrastructure footprint, retiring legacy hardware in favor of cloud/licensing alternatives (University Information Technology Services) — **\$75,000**

- Reduction in administrative operations through budget reductions and consolidations — **\$9,500,000**

Category Subtotal: \$37,699,000

ITEM 4

Allocation of faculty resources

The allocation of faculty resources at each university based on the time needed to instruct students and to conduct other research activities.

- ASU, NAU, and U of A are classified as Highest Research Activity public institutions and mirror their peers in this category.

	ASU	NAU	U of A
Teaching	40%	40%	40%
Research and Scholarship	40%	40%	40%
Other Activities - Administrative Duties, Personal Growth/Professional Development, Service	20%	20%	20%

Individual faculty time allocations vary widely based on a variety of factors, needs, and work expectations.

ITEM 5

Change in student credit hours required

The number of credit hours required for a baccalaureate degree for the previous academic year and the 2003-2004 academic year for the ten-degree programs that had the largest increase in credit hours required for a baccalaureate degree between the 2003-2004 academic year and the 2017-2018 academic year, and between the previous two academic years.

ASU

- 2025-26: No degree programs exceeded 120 credit hours.
- 2024-25: No degree programs exceeded 120 credit hours.
- 2017-18: No degree programs exceeded 120 credit hours.
- 2003-04: No degree programs exceeded 120 credit hours.

NAU

- 2025-26: No degree programs exceeded 120 credit hours.
- 2024-25: No degree programs exceeded 120 credit hours.
- 2017-18:
 - Civil Engineering (129 credit hours).
- 2003-04:
 - Civil Engineering (128 credit hours).

U OF A

- 2025-26: No degree programs exceeded 120 credit hours.
- 2024-25: No degree programs exceeded 120 credit hours.
- 2017-18:
 - Bachelor of Architecture (174 credit hours)
 - Bachelor of Science in Animal Sciences (123 credit hours)
 - Bachelor of Arts in Mathematics (Education Emphasis) (127 credit hours)
 - Bachelor of Science in Nursing (126 credit hours)
 - Bachelor of Science in Nutritional Sciences – various emphases (129 credit hours)
 - Bachelor of Music in Performance – various emphases (133 credit hours)
 - Bachelor of Arts in Studio Arts (127 credit hours)
- 2003-04:
 - Bachelor of Architecture (166 credit hours)
 - Bachelor of Arts in Mathematics – education emphasis (123 credit hours)
 - Bachelor of Music in Performance – various emphases (125 credit hours)

ITEM 6

List of degrees

Academic Year 2025-2026

Detailed information on nontraditional or lower-cost degree options that each university currently offers, has recently developed, or is pursuing. Arizona's public universities are the state's largest provider of higher education, enrolling more than 251,194 students of which 106,000 are Arizona residents. Of Arizona's high school graduates that pursue a four-year degree, 68 percent choose to attend one of the state's three public institutions.

While the majority of students remain on the universities' main campuses in a traditional program of study, each university continues to provide opportunities to deliver four-year degree options in localities that are geographically more convenient and in customized pathways that allow students to complete both undergraduate and graduate degrees in an accelerated timeframe. This section summarizes those options, organized by city, followed by each university's Alternative Degree Earning Programs and Community College Pathways.

ARIZONA STATE UNIVERSITY

90-CREDIT-HOUR BACCALAUREATE DEGREE PROGRAMS

Beginning in 2026, ASU will offer a Bachelor of Education with concentrations in elementary education and special education that may be completed in ninety credit hours. These programs will be offered on-campus and online.

ACCELERATED GRADUATE DEGREE PROGRAMS

Accelerated degree programs are designed for high-achieving undergraduate students who want the opportunity to share undergraduate coursework with graduate coursework to accelerate completion of both degrees. These programs, featuring the same high-quality curriculum taught by ASU's world-renowned faculty, allow students to obtain both a bachelor's and master's degree in as little as five years.

TUITION AND FEES

Students reduce costs by reducing the time to completion of both undergraduate and graduate degrees.

NORTHERN ARIZONA UNIVERSITY

PERSONALIZED LEARNING

NAU's fully online competency-based program, which allows students to earn credits towards a degree based on demonstrating mastery of skills. Students pay an all-inclusive six-month subscription that covers as many courses as can be completed. The self-paced format allows students to advance quickly and accelerate degree completion.

TUITION AND FEES

Tuition and fees will be facilitated by our partner, Beacon Education Limited, along with its affiliates who will support payment, enrollment, and study.

DEGREES OFFERED

Computer Information Technology (M)

Organizational Leadership (M)

Computer Science (MS)

ACCELERATED GRADUATE DEGREE PROGRAMS

Northern Arizona University's accelerated bachelor and master degree programs provide the opportunity for academically qualified students to earn both a bachelor's and a master's degree in an accelerated manner. Typically, a bachelor's degree requires four years to complete, and a master's degree requires an additional two years. However, the accelerated degree programs may allow students the opportunity to complete both their undergraduate and graduate degree in as few as five years

TUITION AND FEES

For tuition purposes, students will be considered undergraduates until they complete their undergraduate requirements and their bachelor degree is posted. Once admitted to an accelerated program in their junior or senior year, students will continue to be charged tuition at the undergraduate rate and retain eligibility for undergraduate scholarships, grants, and fellowships. After completing all bachelor degree requirements, students must complete graduation paperwork so that their degree can be posted. Once the degree is posted, they will be granted regular admission and full graduate status which makes them eligible for Graduate Assistantships and other graduate financial awards.

ARIZONA STATE UNIVERSITY

The goal of Arizona State University's (ASU) community college pathway programs is to increase the numbers of students who transfer from community colleges to ASU, prepare for success in their desired majors, and complete their associate and bachelor's degrees, while reducing time and costs. ASU offers the MyPath2ASU® for students from public and tribal colleges across the State of Arizona. There are several elements that make these pathways distinct:

These pathways build in a full transfer associate degree. When students enter the university, they have a maximum of 60 credits remaining for graduation.

Credits on a pathway transfer and apply to the student's designated major. This is both cost-effective and time efficient, as there is no loss of credit when community college students follow their pathway.

Courses on a pathway are identified using community college course numbers and titles so that students and advisors do not have to reference other tools or compare college catalogs.

Students on a pathway receive communication about applying to the university, financial aid and transfer scholarship opportunities, important dates and deadlines, and key points of contact, personalized to their specific program of study.

These pathways support community colleges degree completion initiatives because the pathways include completed associate degrees. Similarly, pathways incentivize students to enter university academically prepared, making them more likely to complete a baccalaureate degree. Most importantly, pathways support students because the programs are designed around student success data and provide incentives for completing major milestones along the route to success.

75/45 PATHWAYS

ASU offers degree programs in which students can apply up to 75 transfer credits from their community college, including the RN to BSN program, BA in Organizational Leadership and BA in Interdisciplinary Studies.

Associate of Applied Science (AAS) degrees are a popular choice for community college students because they lead to a variety of high-demand careers. Paired BAS degrees offer students a pathway to successfully transfer to ASU to complete a baccalaureate degree. AAS graduates from Arizona community colleges can transfer up to 75 credits toward an aligned BAS degree program.

NORTHERN ARIZONA UNIVERSITY

2NAU

2NAU offers community college students interested in completing a bachelor's degree at Northern Arizona University (NAU) seamless and personalized transfer guidance, including communications that alert them about important dates and deadlines. 2NAU students receive an NAU ID, personal NAU email account, access to NAU's Cline Library and invitations to NAU events during their community college enrollment to begin their pathway to the university. Additionally, students who successfully maintain minimum criteria may qualify for a 2NAU scholarship of up to \$1,000 per semester upon transferring to NAU.

90/30 PROGRAMS

Lower cost option that allows 90 credits to be earned at the community college and transferred toward an NAU bachelor's degree.

UNIVERSITY OF ARIZONA

AZ TRANSFER PATHWAYS

Through specifically articulated agreements with community college partners across Arizona called AZ Transfer Pathways, students can follow a prescribed 2+2 pathway of courses and have that coursework transferred to the University of Arizona (U of A) into a desired Bachelor's Degree. By following an AZ Transfer Pathway and taking lower division work at a community college, students save on the total cost of their 4-year degree and have clearer paths towards degree completion.

75/45 BAS PATHWAYS

Special attention has been paid to AAS to BAS pathways, identifying pathways for every AAS in the state to a U of A BAS program. This allows students to transfer 75 units from the community college and further reduces the costs of the 4 year degree program to increase transfer access to the U of A.
